

by Derek Morrison

*Many devices become a radio in these digital times
Now new platforms to watch all the world's crimes
Online Venus-Fly-Traps proffering much choice
Inadequates and the evil now given amplified voice
No time to long read or to talk face-to-face
Eyes glued to a screen even as legs make the pace
As cyber wizards dream up yet more ways to connect
Distraction, distraction, drowning out how to reflect.*
